

POURING RINGS, GL 32 / GL 45, PP

LABSOLUTE® pouring rings made of polypropylene (PP) are the perfect complement to the LABSOLUTE® clear and amber laboratory glass bottles with GL 32 or GL 45 thread.

The standard colour of the pouring rings is blue, but you can also get them in the fancy colours yellow, green, grey, purple, or even transparent.

Your advantages:

- Autoclaveable at 121 °C

Please do not hesitate to contact your Th. Geyer sales representative or the product management team (pmlabsolute@thgeyer.de), if there are any questions concerning the chemical resistance of the screw caps and/or pouring rings.

Item no.	Colour	Thread GL	Pieces per pack
7 690 392	Blue	32	
7 690 067	Blue	45	1
7 690 077	Yellow	45	1
7 690 078	Green	45	1
