

## LABSOLUTE® MEASURING BEAKERS

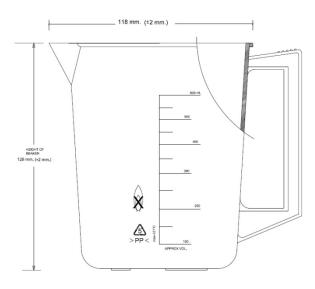

with closed handle

## **Properties**:

- Made of high-quality polypropylene (PP)
- Comply with ISO 7056
- With functional spout and red printing
- Smooth surface for quick and easy cleaning
- Dishwasher proof and autoclaveable at 121 °C
- High resistance against a wide range of chemicals

#### Value table:

Item no.	V	D	Ø*	h*
	ml	ml	mm	mm
7.693 020	100	10	71	73
7.693 021	250	25	91	93
7.693 022	600	50	118	128
7.693 023	1,000	50	141	150
7.693 024	2,000	100	172	192
7.693 025	5,000	500	223	262
* ± 2 mm				

## **Description of the abbreviations in the value table:**

Item no. Item number

V Nominal volume of the measuring beaker

D Division of the scale

Ø Max. diameter of the measuring beaker without handle incl. spout

h Max. height of the measuring beaker

#### Notes:

Beakers made of PP may not be exposed to open flames. Plastic beakers are very temperature sensitive. Therefore please check the max. operating temperature before use. Max. operating temperature for PP is 125  $^{\circ}$ C, but it is recommended to avoid a permanent exposure to more than 100  $^{\circ}$ C.

Please contact your Th. Geyer sales representative, if there are any questions concerning the chemical resistance of the measuring beakers.

Further information is part of the declaration of conformity.
