## Description of the abbreviations in the value table:

| V | Nominal volume of the bottle |
| :--- | :--- |
| $\mathrm{V}_{\text {max }}$ | Maximum filling volume of the bottle |
| m | Weight of the bottle incl. screw cap |
| $\varnothing_{\text {out }}$ closure | Outer diameter of the screw cap |
| $\varnothing_{\text {in }}$ closure | Inner diameter of the screw cap |
| $\varnothing_{\text {out bottle }}$ | Outer diameter of the bottle |
| S | Wall thickness of the bottle |

Please find the units of the different values in the headline below the description..

## Description of the abbreviations in the technical drawings:

O.D. Cap
O.D. Bottle

Height with Closure
Wall thickness

Outer diameter of the screw cap
Outer diameter of the bottle
Height of the bottle incl. screw cap
Wall thickness of the bottle

All values in the technical drawings are given in millimeter. Allowed tolerances are written in brackets. The deviation can decrease or increase the nominal value.

125 ml wide mouth bottle made of LDPE, HDPE and PP

250 ml wide mouth bottle made of LDPE, HDPE and PP

500 ml wide mouth bottle made of LDPE, HDPE and PP

$1,000 \mathrm{ml}$ wide mouth bottle made of LDPE, HDPE and PP
